"Fisher Folks" (Biograph)—A love story told of the fisher folks in a picturesque village near the sea. It is the tale of a love that is born of coquetry and the love that is born of a true heart, and clearly points out the difference between them. The coquette loses, though there are lapses on the part of the man that almost break the heart of his wife. The ending of the story is pleasant, showing the little family united and free from the machinations of the flirt. It is one of those domestic stories, filled with dramatic interest, because it depicts what actually occurs in human hearts. The setting is picturesque and affords numerous glimpses of an interesting fishing village. It's at the Dreamland.

In the Grand Stand Among Wide-Awake Americans

That's where you'll see Adler-Rochester and Shuman Clothes. In every gathering of well dressed, manly men who know—at work or at play—these famous makes are easily recognized.

There are many reasons why you, too, should wear Adler-Rochester and Shuman clothes.

First, they offer the most for your money.

In them you get the very best style—and each garment is made to fit, **really fit.**

You have a choice of patterns and shades in materials that no other clothes can offer.

And the long wear they afford—the way each garment holds its shape to the end—makes them real economy.

ADLER-ROCHESTER CLOTHES

Now let's get at the reasons for these superiorities:

The Adler-Rochester plant, you know, is the finest tailoring institution in the world.

It employs the best cloth experts, the ablest designers, and the most skilled cutters and tailors in the country.

No Fifth Avenue, N. Y., Merchant Tailor knows more about clothes-making than these men.

And this rare combination of skill works with materials that are the choicest products of the leading woolen mills, here and abroad. Most of the patterns are created for Adler-Rochester clothes alone.

But we could talk on forever! What's the use, you're coming in to **see** the clothes! **You'll** be the enthusiastic one then.

Better not delay your visit too long, though.
